For the past decade, our efforts centered on urban cardiovascular health, leprosy and malaria elimination, and digital health.

**Better Hearts Better Cities**

These initiative convened multisector partners to improve cardiovascular health in low-income urban populations.

**Leprosy and malaria elimination**

Novartis and the Novartis Foundation have been working with partners to eliminate leprosy for over 30 years and eliminate malaria for over 20 years.

**Digital health**

For almost a decade, the Novartis Foundation has been using data, digital and AI to power people-centered, scalable and sustainable initiatives.
